

ENVPOL04 Environmental Management

Statement

As part of BreatheSafe's commitment to achieving the principles of responsible environmental management, sustainability, and protection of the natural environment in our workplace, we recognise our moral and legal responsibility to ensure that our activities, will not negatively affect the environment.

Aims

BreatheSafe are committed to environmental improvement and prevention of pollution. We will achieve this by working with our customers, suppliers and the community. To achieve these aims, we will:

- develop, implement and maintain a management system that addresses the requirements of ISO 14001 2015, Environmental Management Systems.
- comply with all applicable legal and regulatory requirements, EPA, local council Planning Act and environmental policies.
- reduce waste through innovative work practices, recycling practices and investigating local sustainability groups.
- minimise environmental impacts by reduction of polluting substances produced by our operations, activities, products, or services.
- minimise the impact of our operations on the neighbouring community,
- increase the use of environmentally acceptable materials, equipment and technology in place of those which are considered harmful.
- where possible encourage our suppliers to follow acceptable environmental practices and
- actively promote environmental awareness among workers, suppliers and clients.

Responsibilities

We recognise that the overall responsibility for control of practices that have a significant environmental impact, rests with management, who will be accountable for:

- ensuring that all environmental policies and procedures are implemented and communicated to all BreatheSafe employees.
- establishing measurable objectives and targets to ensure continued improvement aimed at the reduction or elimination of waste, and pollution.
- encouraging consultation and co-operation between management, workers and stakeholders in matters which may affect or impact the environment.
- providing adequate resources to meet these environmental commitments.

Workers have responsibilities, which include:

- following all environmental policies and procedures.
- recognising and reporting hazards which may have an impact on the organisation and the local environment.
